

\*I can talk about why we  
use a database to analyse  
data.

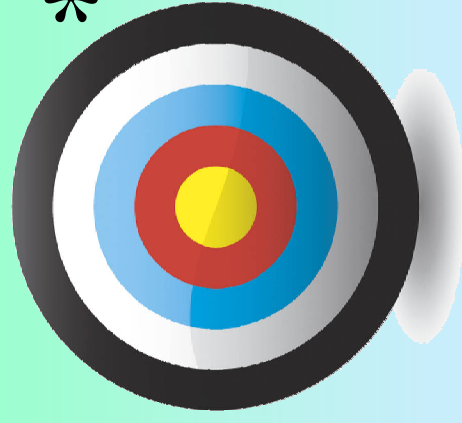

\*I can suggest questions  
that we can answer using  
the database.

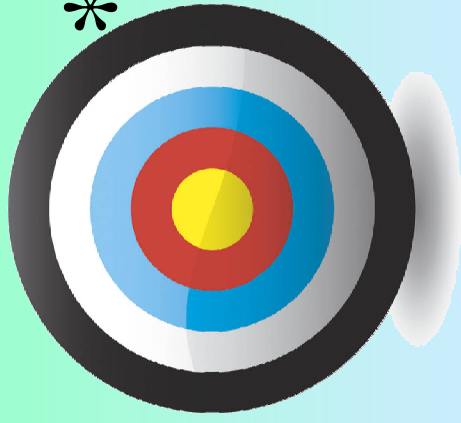

\*I can use the search, sort  
and graph tools to answer  
questions.

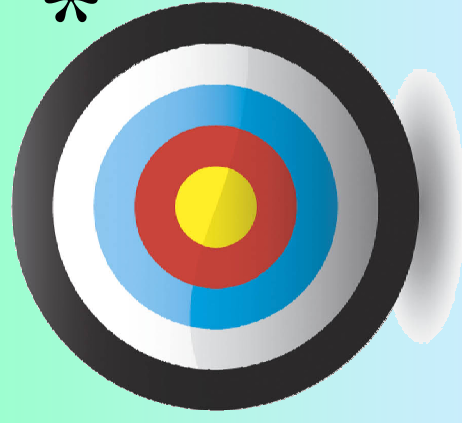

\*I can decide whether to use  
search, sort or graph tool  
to answer a question.

\*I can narrow down a search using AND.

\*I can spot strange values and mistakes and check information for plausibility.
