Kipper's Toybox

Draw and label the toys in your toybox.

The central illustration shows an open rectangular toybox with a thick black outline. Inside the box, there is a white toy figure with a pointed hat and a wheel. Four large, empty circles are positioned around the toybox. Arrows point from the toybox to each of these circles: one to the top-left circle, one to the top-right circle, one to the bottom-left circle, and one to the bottom-right circle. This layout is designed for a child to draw and label their own toys within these circles.
